

2006 HTS/Bodycote Best Paper in Heat Treating Award

Congratulations!! Shuhui Ma received the 2006 HTS/Bodycote Best Paper Award for her paper entitled: “Modeling the Heat Treatment of Age-Hardening Cast Aluminum Alloys”. (Pictured with Prof. Richard D. Sisson, Jr. and John Hubbard). She received the plaque at the MPI Spring Symposium “Innovation in the Metals Processing World” on May 25, 2006.

This award, established in 1997 by the ASM Heat Treating Society, recognizes a paper that represents advancement in heat treating technology, or promotes heat treating in some substantial way or represents a clear advancement in managing the business of heat treating.
