

Materials Science and Engineering Seminar Series Fall Semester 2005
Multidisciplinary Materials Research at WPI

September 7	Manufacturing and Materials Engineering Welcome to WPI Welcome lunch (Lunch and Ice Cream Social)
September 14 Joint with MFE	Dave Messier Safety Seminar <i>"Materials Laboratory Safety and Hazardous Waste"</i>
September 21	Kyozo Arimoto Arimotech Ltd., Osaka, Japan <i>"Explanation on Origin of Quench Distortion and Residual Stress by Computer Simulation"</i>
September 28	No Seminar
October 5 Joint with MFE	Chris Brown Mechanical Engineering <i>"Nature"</i>
October 12	David Messier Manager Environment & Occupational Safety <i>"Laboratory Safety"</i>
October 26	Radhakrishnan Purushothaman Graduate Student – Manufacturing Engineering <i>" Pictures from China & Nepal during summer 2005 "</i>
November 2	Boquan Li Safety Seminar <i>"Laboratory Use "</i>
November 30	Hao Li Mechanical and Aerospace Engineering University of Missouri <i>"Synthesis and Properties of Carbon Nanotubes and Nanocrystalline Diamond "</i>
December 7	Student Presentations “
December 16	Holiday party for attendees and presenters

Materials Science and Engineering
Washburn 323
Thursdays 12:00 - 12:50
